PERSONAL STATEMENT

Computer Science undergraduate at American International University, Bangladesh, with hands-on experience building full-stack web applications using React, Node.js, TypeScript, and PostgreSQL. Passionate about designing clean, scalable systems from civic-tech platforms to real-time delivery workflows and actively seeking internship or entry-level opportunities to apply and grow full-stack development skills in a production environment.

EDUCATION

American International University, Bangladesh <i>Bachelor of Science in Computer Science and Engineering</i>	Dhaka, Bangladesh <i>Sep. 2022 – Present</i>
Dhaka Imperial College <i>Higher Secondary Certificate (HSC)</i>	Dhaka, Bangladesh <i>2019 – 2021</i>

PROJECTS

CitySync <i>React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Stripe</i>	May 2026 – Jun 2026
- Built a full-stack civic issue-reporting platform enabling citizens to report and track local infrastructure problems - Implemented JWT-based authentication with role-based dashboards, securing access across citizen, staff, and admin roles - Integrated Stripe payment processing and imgbb image hosting, resolving a production double-charging bug to ensure reliable transactions - Deployed a decoupled architecture (Firebase frontend, Vercel backend) with dark/light theming and full mobile responsiveness	
Zapper <i>React, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Auth, Stripe, Leaflet</i>	Apr 2026 – May 2026
- Built a full-stack parcel delivery platform with role-based access control across User, Rider, and Admin workflows - Integrated Leaflet-based interactive maps to display real-time service area coverage for delivery requests - Implemented secure Stripe payment processing and Firebase authentication for user onboarding and transactions - Designed a rider application and admin approval workflow, streamlining onboarding from application to active delivery assignment	
Toytopia <i>React, Firebase, React router DOM, Tailwind CSS, Date-fns</i>	Jan 2026 – Feb 2026
- Implemented user authentication using Firebase, including email/password sign-up, login, and Google Sign-In. - Designed protected routes to restrict access to authenticated users. - Built interactive UI elements such as carousels and sliders using Swiper.js and scrolling sections with React Marquee. - Developed a fully responsive UI using Tailwind CSS and DaisyUI.	

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python
Frontend: React, React Router, Tailwind CSS, DaisyUI, React Query, React Hook Form
Backend: Node.js, Express.js
Databases & ORMs: PostgreSQL, MongoDB, Prisma
Auth & Payments: JWT, Firebase Authentication, Stripe
Tools: Git, Visual Studio Code, Cursor, Antigravity

COURSES & CERTIFICATES

Programming Hero: Web Development Level 1
Scrimba: Learn TypeScript
IELTS: Band 7.5
